

# PACKING LIST

## WILD FRONTIER OUTFITTERS

### GUIDED HUNT

#### WHAT YOU SHOULD BRING

- Rifle & ammo (20 round minimum in case gun must be sighted in)
- Hunting license, tags & permits (folded in ziplock bag)
- Binoculars (recommended in chest harness)
- Sleeping bag (compressed, 0 to -20 degree)
- Sleeping pad (lightweight inflatable like Nemo Tensor insulated)
- Day pack (medium to large size to help pack animal and gear)
- Waterproof pack cover large enough for FULL pack
- Water bottles (Nalgene or Platypus style)
- High quality breathable waders with hiking style lightweight wading boots: NO FELT SOLES per Alaska regulations. \*No spikes please.\*
- Portable batteries for charging phones and other electronics
- Headlamp with batteries (\*High quality for use in rain)
- Trekking poles (helps with heavy meat loads, recommend aluminum)
- Bug repellent & head net (\*This is a must - bring back ups)
- Knives (small fixed blade & replaceable blade Havalon)
- Toiletries (include small pack of wet wipes and gallon zip locks)
- Camera & small video camera to document adventure
- Several smaller lightweight dry bags for storing clothes in duffel
- Garmin InReach communicator
- Lightweight tripod for attaching binoculars for glassing
- Small mixed bag of common medicine like ibuprofen and Tums
- Good book you have been meaning to read
- Beverages other than the coffee and flavored water (provided)
- Inflatable camp pillow (or use your clothes)
- Wiggy's lightweight waders (packable for creek crossings)
- Favorite personal snacks (we will have plenty though)
- Plastic garbage bags (packing wet items on return)

*\* Please remember to bring cash as a form of gratuity for your guide. It's customary to leave 10-15% of your trip cost per hunter (i.e. \$2000-3000 for a \$20,000 hunt). We hire the best and they work extremely hard!*

#### WHAT WE PROVIDE

- Transportation via De Havilland Beaver or Piper Super Cub
- NRS self-bailing 14' rafts and rafting equipment (if doing a float)
- Satellite phone (bring yours, too, if you have one)
- Spotting scope
- First-aid kit
- Quality high-profile tents that allow for standing on rain days
- Tall cots & minimalist sleeping pads (recommend bring your own)
- PFDs (if doing a float)
- Cooking supplies: stoves, propane, pans, plates, cups, utensils, coffee press, paper towels, Jetboil & fuel canister
- Meals and snacks
- Water purifier
- Glassing butt pads and seats
- NRS 110L dry bags (you will transfer all of your personal clothes/equipment into these bags)
- Game bags
- Foldable toilet and toilet paper
- Camp chairs
- Lightweight tarp shelter for glassing in bad weather

*\* We recommend not exceeding 50-60 lbs. of personal gear.*

#### CLOTHING FOR HUNTING IN ALASKA

Weather in Alaska is constantly changing. With that being the case, the "layering system" is the best strategy to staying comfortable and safe.

**Layer 1:** We start off with a synthetic or synthetic wool blend base layer.

**Layer 2:** An alternate layer could be a medium to heavyweight wool or synthetic sweater or pullover. Fleece garments are a great choice also.

**Layer 3:** Can be a fleece, wool, or synthetic fiber jacket. **Avoid cotton materials.** Think water resistant soft shell.

**Final layer:** Waterproof rain jacket & pants. THIS IS YOUR MOST IMPORTANT ARTICLE OF CLOTHING. We recommend a high quality Gore-Tex jacket and a more rubber jacket like a Helly Hansen or Grundens as a backup.

- High quality wool socks & liner socks (4-5 pairs)
- Quick drying synthetic or wool pants (2 pairs)
- Puffy jacket & pants with full length zipper for easy off/on
- Soft shell jacket (quick drying with multiple pockets & pit vents)
- Performance type underwear for comfort & moisture control
- Base Layers (2-3)
- Lightweight long Johns (KUIU zip off bottoms are incredible)
- Fleece or wool top/jacket/pullover/warm hoodie

- Waterproof rain jacket, Gore-Tex & Helly Hansen/Grundens backup (2)
- Trapper style warm hat, beanie, neck gaiter to bundle up for glassing
- Mittens (KUIU or First Lite glassing mittens are great)
- SHOWA 282-02 waterproof gloves (keep hands warm and dry)
- Camp shoe/slip-on Crocs type or deck shoes
- Insulated hiking boots (such as Crispi guide boots + quality insoles)
- Boot gaiters (recommend KUIU Yukon)
